SUMMARY

Experienced Ruby on Rails developer with a strong foundation in web development and database management. Dedicated to delivering excellent solutions and succeeding in difficult projects. Committed to contributing expertise to drive organizational success in software engineering.

EXPERIENCE

Jr. Software Engineer (Ruby on Rails)

Syftet Limited

📅 09/2022 - Present 📍 Mirpur DOHS, Dhaka, Bangladesh

- Spearheaded software development using Ruby on Rails, implementing cutting-edge technologies such as API development, Swagger API documentation, Stripe integration, and JSON Web Token (JWT) for enhanced functionality and security.
- Translated business requirements into robust, scalable web applications through cross-functional collaboration.
- Key role in developing, designing, and maintaining critical features for seamless user experiences.
- Actively contributed to code reviews, debugging, and optimization for an efficient and well-documented code base, etc.

IT Executive

Bangladesh Freight Forwarders Association (BAFFA)

📅 09/2021 - 11/2022 📍 Banani, Dhaka, Bangladesh

- As an IT Executive at BAFFA, I was in charge of web application maintenance and support, guaranteeing their proper operation and providing IT support to the firm.
